

#Sedimentology.Lunch

TALKS & DISCUSSIONS DURING LUNCHTIME - 12:30-13:30

•

every 2nd Thursday every month starting in November 2020

current topics in sedimentology and sedimentary geology

Upcoming talks

12-11-2020

From mountain chains to grains: Tracing Alpine erosion using sedimentary provenance analysis

Laura Stutenbecker (TU Darmstadt)

10-12-2020

Beyond the paradigms: Advances on our understanding on submarine lobe deposits

Yvonne Spychala (Leibniz University Hannover)

14-01-2021

Process interactions in modern and ancient coastal sedimentary systems

Marcello Gugliotta, (University of Bremen)

11-02-2021

Reconstructing the Jurassic temperature record of Gondwana: palaeoclimatic, palaeogeographic and palaeoecologic implications

Matthias Alberti (Kiel University)

11-03-2021

Lacustrine sediments as natural seismographs: from mud stories to new insights in

earthquake recurrence Jasper Moernaut (University of Innsbruck)
