Zukunft denken

**RWTH**AACHEN  
UNIVERSITY

Please send a cover letter stating research aims and a CV to:

**Dekan der Fakultät für Georesourcen und Materialtechnik der RWTH Aachen, Univ.-Prof. Peter Kukla, Ph.D., 52056 Aachen**

In addition, please complete the application questionnaire, accessible at [www.fb5.rwth-aachen.de/appointment](http://www.fb5.rwth-aachen.de/appointment).

You can also send your application via email to [StructuralGeology@fb5.rwth-aachen.de](mailto:StructuralGeology@fb5.rwth-aachen.de). Please note, however, that communication via unencrypted email poses a threat to confidentiality as it is potentially vulnerable to unauthorized access by third parties. For information on the collection of personal data pursuant to Articles 13 and 14 of the General Data Protection Regulation (GDPR), please visit [www.rwth-aachen.de/gdpr-information](http://www.rwth-aachen.de/gdpr-information).

The deadline for applications is September 30, 2022.

This position is also available on a part-time basis per request. We welcome applications from all suitably qualified candidates regardless of gender. RWTH Aachen University is certified as a family-friendly university and offers a dual career program for partner hiring. We particularly welcome and encourage applications from women, disabled people and ethnic minority groups, recognizing they are underrepresented across RWTH Aachen University. The principles of fair and open competition apply and appointments will be made on merit.

RWTH Aachen University is one of Germany's pre-eminent Universities of Excellence, which entails the highest quality in teaching and world-class research. RWTH addresses bold, scientific questions; it also assumes a profound responsibility toward society and transfers its knowledge into meaningful applications. RWTH strives for the convergence of knowledge, methods, and findings from its research fields and integrates in-depth disciplinary knowledge into interdisciplinary research consortia represented as profile areas. The university's dynamic, creative, and international environment encompasses efficient research networks, institutionalized cooperations, and, most of all, the innovative RWTH Campus-Project which harbors one of the most extensive technology-oriented research landscapes in Europe.

## **Full Professor (W2) in Applied Structural Geology** Faculty of Georesources and Materials Engineering

---

We are inviting applications for the position of full professor in the area of applied structural geology, to be filled as soon as possible. In terms of research the professorship focuses on applied structural geology and applied tectonics on different crustal scales. Expertise is expected in mineral and rock deformation, deformation experiments or numerical modeling. We anticipate that the person appointed will have a proven track record, teaching experience and international networks. Participation in the current curricula in Geosciences (Applied Geosciences, Georesource Management, Joint Master in Applied Geophysics and Engineering Geohazards) is required in German and English language, including field courses as well as engagement in the development of future curricula.

The applicant should be able to lead and direct a teaching and research unit and to enroll scientific projects and interdisciplinary projects. Experience in large coordinated academic projects or industrial cooperations and raising funding are expected. The concept of RWTH is an integrated interdisciplinary technical university and the professorship will have a bridging function of material-related natural sciences and engineering science at RWTH.

The requirements include a doctoral degree and additional research experience, such as a habilitation (post-doctoral lecturing qualification) or equivalent achievements gained as a university researcher or professor or in a research position outside academia. Teaching ability and dedication are essential and the application should include proof of this. Fluent German is not required to start the position but the successful candidate will be expected to hold classes in German within the first 5 years.

Please include with your application the usual supporting documents: academic and professional profile; lists of publications, third-party funded projects, and lecture programs; research and teaching concepts; teaching evaluations; copies of testimonials and certificates.
